

# Make Your Own Paper Bag Puppet Monster

## How to Make Them

1. You will need two small paper bags, one for each puppet.
2. Color the puppet pieces. Cut out the pieces around the solid outlines.
3. The bottom of the paper bag is the puppet face. Choose eyes, ears, snout, and hat for each puppet and paste or tape them to a bag bottom. You can use the pictures above for a guide, or design your own faces.
4. Choose a top lip for each puppet and paste or tape it to the edge of the bag bottom.
5. a. For one puppet, the bottom mouth-part and tongue are already together.  
b. To make the bottom mouth-part for the other puppet, tape the tongue onto the bottom mouth-part as shown.

6. Tape the bottom mouth-part of each puppet under the edge of the bag bottom. Line it up with the top lip.
7. Give one puppet the collar and bow tie, and give the other the lacy bow.
